MEMORANDUM FOR THE FILE

E-X-T-R-A-C-T

"5. Frank Ecker of the Bureau of the Budget was over to discuss three matters:

a. First, the Bureau is addressing a letter to us, as well as to all other Government agencies, requesting that we participate with them in an immediate study in an attempt to make a four-year projection of our budget requirements. The objective is to get this completed by about 1 June inasmuch as the Bureau's whole package is to be presented to the President on 15 June. They do not propose to make a detailed study of our proposals, but they want to take a long-range and broad look to try to determine where we are going in the next four years. Typical big questions which they will try to find answers to concern the future of NPIC, ADP, etc. I told Frank that we would certainly cooperate in every way but that I thought it was going to be difficult to get anything very accurate for Fiscal Years 1963 and 1964.

b. Second, he advised me that at a recent luncheon meeting of the "Special Group" the Department of State agreed to have another look at the meritorious exiles program. In this connection George C. McGhee of the Department of State, Bob Macy of the Bureau of the Budget, and [REDACTED] 25X1A9a of CIA have been appointed a committee to look into this problem. They are also to look into our proprietary problem. For this reason the Bureau will defer for the time being any study of our proprietaries and subproprietaries which have been discussed in recent correspondence between Mr. Ecker and myself. If the McGhee/Macy, [REDACTED] Task Force does not deal adequately 25X1A9a with proprietaries, they will take it up at some later time.

c. Third, the Bureau is working on a scheme which would require practically all Government employees using jet service to London or Paris to go economy class. This would save \$200 each way for each person travelling. I told Frank that we would be glad to cooperate with them on this, that there will be exceptions, and that he should work with Ed Saunders on it."
